

## CHAPTER V CONCLUSION AND SUGGESTION

### A. Conclusion

A simile is a figure of speech which one thing is compared to something else which connected by the words like or as, the purpose to give an interest information and build good impression in the mind of reader through comparison. However not all sentences contain the word —like or —as are similes. It must be examined the two things compared are different thing or not, the simile is comparison between two items that different in literal meaning but have similarity.

Based on the result data analysis and finding, the research question had been answered. The research question of this research was, what are the simile marker found on O Henry short story —The Ransom of Red Chief, The Little Match Girl and The Gift of The Magil?. The second research question What are the meaning of simile expression in O Henry short story —The Ransom of Red Chief, The Little Match Girl and The Gift of The Magil. The researcher found 9 data were classification as simile. There were 8 data using marker *like*, there all of data using marker *like* based on Granger and Meunier. The researcher were found 1 data using marker *as*.

### B. Suggestion

Simile was an important thing to study by student especially in college in case of face the future as a people which have more knowledge in English. Meanwhile, for college students, this researcher finding would useful for them in adding their knowledge about simile, the marker and the

use of simile itself. Since, college students would studied about translation and linguistic. This research would give an information that O Henry short story was a good story that could use by them as a media in teaching learning process. In addition, the researcher only did the research on analyzing the marker.
